25X1 Approved For Release 2005/05/በ6 : CIA-RDP82-00047R0002005100025X1 China up until sometime in 1950 at which time a dictionary was compiled covering Chinese terms for every branch of the sciences. had to invent a Chinese term for "Bunsen Burner" which would adequately describe the article and yet use some well known Chinese word. Nearly all the Chinese colleges and universities contributed to this dictionary, which was afterwards assembled by a committee located in Peking; a final draft was prepared by the committee. in late 1951, the committee was still assembling rough drafts from the various schools in 6. Peking Union Medical College PUMC at Peking was the outstanding medical college in China and perhaps even in Asia. 25X1 PUMC trains students primarily for teaching and also for specialization in the medical field and for clinical work. It was a complete medical school with extremely hard entrance exams which were given to pre-medical students from all the colleges and universities having such courses throughout China as well as Asia. FUMC used Harvard as a standard, and, as a matter of fact, most of its faculty were educated at Harvard. The departments at PUMC are divided into two divisions, pre-clinic and clinic. The pre-clinic departments, together with their deans, were: Anatomy Dr Chang Bacteriology Biochemistry Dr Liang Physiology Dr Chang 树正祥 Pathology Dr Hu Pharmacology Dr Ching The departments under the clinic division are: Medicine Dr Chang Surgery Dr Wu Obstetrics and Gynecology Dr Lim All the above professors are not only well known in medical circles in China but 25X1 they now 25X1 25X1 ` there were over 2000 students of whom approx-25X1
